CERTIFICATIONS

- Crash Course on Python
Coursera
- Programming with Java
on Coursera
- Python Certification on
HackerRank

SKILLS

PROGRAMMING

- Java
- Python
- C Programming

WEB TOOLS

- HTML
- CSS
- Javascript

IT CONSTRUCTS

- Data Structures
- Algorithms
- MySQL
- REST API

TOOLS

- VSCode
- IntelliJ IDEA
- Eclipse
- PostMan
- Linux
- GitHub

EXPERIENCE

KaHa Technologies Pvt. Ltd.(BOAT)

| SOFTWARE ENGINEER-SERVER - BACKEND
Aug 2022 - Present | Bengaluru, India

- Added Various features As per the Product Requirements.
- Bug fixes in existing codebase.
- As a Backend Developer - Wrote and review Code and designed various new APIs.

KaHa Technologies Pvt. Ltd.(BOAT)

| SOFTWARE ENGINEER-INTERN
Feb 2022 - July 2022 | Bengaluru, India

- Worked on back-end designing using Java.
- Worked on various tools like Spring boot, MySQL, Python, jquery and AWS
- Full Stack Developer - Wrote and review code, back-end Improvement and back-end testing

PROJECTS

FIRMWARE PORTAL | DEVELOPER

- REST based Web application for QA Team to get out details about the firmware and can perform operations on those data
- TechStack : HTML, CSS, JQuery, Java , Spring boot, JPA(Hibernate), AWS s3 and MySQL

LIBRARY MANAGEMENT APPLICATION | DEVELOPER

- REST based Web application for managing the books and authors data in Library .
- A User can perform all the CRUD operations over authors and books.
- TechStack : Java, Spring boot, JPA, REST, MySQL
- GitHub Link : github.com/Hitesh-180876/Project-Book-Management-System-Using-Java-Spring-Boot

Hello (Chatting Application) | College Team

- Live web application for connecting many users simultaneously.
- A user can register himself and send message in the chat room
- TechStack: Java, Spring boot, STOMP, websockets, AWS ec2
- GitHub Link: <https://github.com/Hitesh-180876/Hello>

ACHIEVEMENTS

- Participated in more than 15 contest on codechef and got rating #1762.
- Solved 600+ problems on different coding platforms.
- Codechef SNACKDOWN qualified two rounds.
