SUMMARY

Ambitious to build my career with a leading organization with committed and dedicated people which will help me to explore my potential to try and work as a player in a challenging and creative environment to apply and enhance current skills and to acquire new skills from organization

PROJECTS

NOV

2021

GYM MANAGEMENT SYSTEM

- In this project, I made a gym management system where a normal user can register for the gym. The admin can view all user's details and update their details.

SEPT- OCT

2021

GMAIL BOX

- In this project, I made Gmail Box. In this user can send, receive or delete any message like an actual Gmail application. Users also have the functionality of trash, draft etc.
