Seeking a challenging position in the software industry where my skills and knowledge can be enhanced as well as best utilized in successful completion of the software assignments and be responsible to provide the team technical judgment and creativity.

WORK EXPERIENCE

Sr. Android Developer and Sr. Flutter Developer

Mar 2021 - Present

Kyros Infotech, Surat

- The only first mobile developer is leading the other two backend developers to build the first ever android + iOS applications for in-house Applications.
- The first in-house application was built and used by 100+ users in the firm.
- Helped to overcome the lack of employee performance.
- Chatting applications without Firebase (i.e. using socket programming) with extra firm features.
- Experienced with almost all the Widgets with Bloc state management and moor and hive database. An understanding of optimisation using less time complexity and giving more performance.
- Push Notification in android + iOS plays an important role.
- I developed three custom android + iOS applications using flutter.

Sr. Android Developer

Oct 2019 - Mar 2021

La Net Team Software Solutions Pvt. LTD, Surat

- Led the team and talked with overseas clients, and helped the team find solutions.
- Communicate to Project Managers, providing developing time estimates and project updates with efficiency and accuracy.
- Worked closely with Developers, QA and Product team to ensure timely and cost effective delivery of final products.
- Worked with API developers to provide data to the apps via Restful API and JSON.
- Planning scrums and creating tasks according to the client's requirements.
- Good knowledge of Vuforia(AR) and knowledge about using Maps in the application.
- We used Java and Kotlin languages to build the application with the client's user.

Android Developer

Feb 2018 - Oct 2019

Key Concepts IT Service LLP, Surat

Product Base Firm needs to maintain coding structure and flexibility of projects.

- List of applications: Global Sports Application(8 Projects) not on Playstore.
- Architect Android applications with MVVM pattern.
- Contribute and participate in new feature product specifications.
- Managed 8 projects or tasks at a given time while under pressure.
- Used socket programming for constant updates of rates in the application and used Java as technology.

Android Developer

Sep 2016 - Feb 2018

Nathani Softwares Pvt LTD, Surat

- Designed android application components.
- Worked closely with seniors to establish problem specifications and system designs.
- Tech used Java using Android Studio from Scratch to finish.
- Performed performance tuning to improve performance over multiple functions.
- Worked with API developers to provide data to the apps via RESTful APIs.
- Worked with lead developers to review how new features will be implemented.

EDUCATION AND QUALIFICATIONS

I was a coding active student in college as well as in curricular activities.
