(B.Tech in computer science.)

## Skills

- C
- C++
- JavaScript
- HTML and CSS
- jQuery
- MongoDB

## Language

English

Hindi

German

## Internships

### Udemy (6 months)

Build several projects by using Html, CSS ,JavaScript ,React and many more. Done within 6 months and learnt a lot of knowledge about building websites and more.

There are some projects :

#### ○ Guess my number

Successfully build the game which is to guess a random number generated by computer in range 0 - 10 in minimum number of guesses.

#### ○ Dicee game

The website simulates a dice game challenge where on every refresh both dice are thrown and a random dice face is generated for both players. The player with larger Dice wins!

#### ○ Tindog

It is a simple website for dogs build using HTML and CSS. It is a startup landing page for a fictional application named TinDog that allows the user to find other dogs & their owner.

#### ○ Simon game

It's a kind of Memory Game. It shows 4 different colored buttons and randomly one of them flashes with a sound in every level. You have to keep track of the correct sequence of flashing buttons in previous levels and you've to click all of them accordingly.

#### ○ Blog website

A blog website is a site that is updated with new information on an ongoing basis. It normally consists of a collection of posts. Posts may be short, informal, controversial, or more professional.

## Certificates

① Full stack web development

② JavaScript
