EXPERIENCE

Software Engineer

IVY Comptech Private Limited

📅 11/2021 - 06/2022 📍 Hyderabad, India

Working on development and Testing

- Worked with Development Team on the Isoftbet - inbound game vender Web Application, a game based on Java, MongoDB and Spring MVC.
- Successfully developed the module which helps the user to register multiple games to the application at a time.
- Successfully testing all the module in game and checking at the logs in backend.

IVY Comptech Private Limited

Working on Testing

- I checked the gameplay features for Winter Berries UK Test cases.
- I made a test report and checked all the features.
- Successfully testing all the module in the game.

PROJECTS

Rainfall Prediction

📅 01/2020 - 07/2020 📍 VIT, Vellore

Worked on machine learning algorithms.

- Main objective of that project to know the amount of rainfall in upcoming days.
- This project was constructed to main objective of this research that make safe situation for future days using technology

Covid-19 Dashboard

📅 05/2021 - 06/2021

Worked on

- Covid-19 dashboard provide the information about all covid active, death, recovered confirmed cases. There are two parts. First is search by pin and second is search by state. Data shows the data related to all cases in the table form region wise.
- Responsive website designed by me in the last year.
- Make responsive pages for all screen type.
- Technology used: HTML5, CSS3, Bootstrap, JavaScript.
