Projects

Web Development for E-commerce Website

Jan 2020 – June 2020

Jointly working in a team of experienced developers for building a custom eCommerce solution which can work wonder for small scale customer. As a team we crafted feature-rich, easily navigable, user-friendly and lightweight eCommerce website for small business. We use word press and other popular PHP frameworks with NodeJS, Databases like MySQL, MS-SQL, SQLite3, etc. to develop robust and scalable online stores. We also Maintained strict budgetary and scheduling guidelines to satisfy Customers with high-quality, targeted designs. We had Conducted unit testing to deliver optimal browser functionality.
