## CAREER OBJECTIVE

Looking for a challenging role so that I can use my skills and capabilities through sincere dedication and hard work for successful career.

## SKILLS

Leadership  
Computer skills  
Communication skills

## ACADEMIC PROJECTS

Project Name: Thermosyphonic Water Purification System

Role: Team Leader

Team Size: 4

Project Duration: 8 Month

Project Detail

The major reason to work on this project is that there is very limited fresh water sources available on Earth. Therefore, I am developing a Water Purification System which is economical in cost with an enhanced productivity rate.

Project Name: Electromagnetic Braking System

Role: Team Member

Team Size: 4

Project Duration: 3 Month

Project Detail

Disk electromagnetic brake are used on vehicle such as trains, and power tools such as circular saws to stop the blade quickly when the power is turned off.

Project Name: Mall Counting System

Role: Team Member

Team Size: 4

Project Duration: 2 Month

Project Detail

In this project I used a ultrasonic sensor to work in making a Mall counting device along with the arduino UNO, LCD device and wires using the C programming.
