Career Objective:

To succeed in an environment of growth and excellence and earn a job which provides me satisfaction and self development and help me to achieve organizational goal.

An open-minded, bold and driven individual offering versatile office management skills. Strong planner and problem solver who readily adapts to change, works independently and exceeds expectations. I am passionate about sustainability, cultural complexity and equity and diversity.

Professional Qualification:

Pursuing Master of Technology in Electronics and Communication from **University Institute of Engineering and Technology, Kurukshetra** affiliated to **Kurukshetra University** with an aggregate Of 83% marks.

S. No	Examination	Year	Board	School	Percentage
1	Post graduation	2022	Kurukshetra university	Kurukshetra university	83%
2	Graduation	2014	Kurukshetra university	Kurukshetra university	70%
3	Intermediate	2010	Central Board of Secondary Education	Kendriya vidyalaya Shalimar bagh New Delhi	70%
4	High School	2008	Central Board of Secondary Education	Kendriya vidyalaya Shalimar bagh New Delhi	83.4%

Achievements/ Extracurricular activities/ Interests:

- Won **Silver** medal in **BADMINTON SINGLE AND BRONZE in DOUBLES** in college **SPORTS MEET '13**.
- **SILVER** medalist in **RELAY RACE** in **ANNUAL SPORTS** meet.
- Senior Volunteer of fest in college technical fest **TEQVIBEZ'12** and **FUSION'12**
- **ESCORT HEAD GIRL** in college **FUSION'13**.
- **Won Scholarship at state level** for hindi in secondary school examination.
- Placement coordinator in college.

Vocational Trainings / Projects Undertaken:

- PASSWORD SECURITY SYSTEM in HCL PRIVATE LIMITED for 6 week. This project is used in the places where we need more security. It can also use to secure lockers and other protective doors.
- STREET LIGHT that glows on detecting Vehicle Movement on highways or roads to turn ON the light when the vehicle is ahead of the lights, and to turn OFF the glowing light when the vehicle passes away from lights. By using this project we can conserve the energy.

Post-Graduation Projects undertaken:

Optimized energy efficiency for wireless body area network. Many low-power devices mounted on a body and connected in a network form a wireless body area network (WBAN). The sensor nodes deployed on the human body form a network and share the information by the use of different routing protocols which have a significant impact on the dissipation of energy and reliability of the networks.
