SQL

Extra Curriculum Activities :

- ❖ Industrial visit at BSNL center Bhopal (M.P.)

PROJECT UNDERTAKEN:

- ❖ Title - RFID based Door Lock System
Technology use- RFID & language used C
Team Size: 4

Description: This project is effective in providing enough security if the password is not shared. In future this "RFID based password security locking system" can be provided maximum security. This system provides the new approach for the security system. The locking and unlocking of door are done with the help of tilt sensor by tilting it in a defined sequence. If the sequence matches with the predefined motion sequence, the lock opens or close and if the sequence dose not matches it will be locked

I hereby declare that all the information given above is true to the best of my knowledge and belief.
