**Project Name:** Ternary Blended Concrete

**Team Size:** 4

**Duration:** Aug. 2019 to Feb. 2020

**Project Description:** -

In this project, we have found that we have got more strength in 10% replacement as compared to 5% replacement and conventional concrete. When foundry sand and lime is added in the conventional concrete compressive strength is increased. As we added foundry sand and lime, compressive strength increased up to 31% than conventional concrete.
