CAREER OBJECTIVES

To associate with an organization offering a professional challenge and rewarding work environment that gives me a chance to enhance my knowledge and skills in the state of the analytical techniques and the work towards the growth of organization.

PROJECTS

FACE RECOGNITION PROJECT USING PYTHON

<https://github.com/ankush-pramanik/Face-Recognition-Project.git>

In this project, we mainly focused on identifying faces, we can train it so it would start recognizing whose face is in the picture. To do that, you must provide it with multiple photos of the faces you want it to remember. Which is built using python libraries like cv2, numpy, face_recognition, datetime and os.

INTERNSHIP EXPERIENCE

LAGOZON, Virtual — Data Analysis

<https://github.com/ankush-pramanik/Certificate.git>

MAY 2021 - JULY 2021

Power BI is a collection of software services, apps, and connectors that work together to turn your unrelated sources of data into coherent sources. In this project, we did analysis of a report using different visualizations in Power BI.
