WORK EXPERIENCE

Manak Information Technology Private Limited.

Frontend Developer | April, 2022 - July, 2022

Where I design & develop the frontend part of the several websites. I demonstrated good Frontend Web Development work with acumen and with my ability to come up with innovative solution to given problem. I successfully developed Ecommerce portal, Static Website.

Frontend Developer

Freelance | 2021 - Present

The users require this interface so that they can access the application in question. As a developer I create a website's appearance and design. And make sure that the design works online by using coding languages such as HTML, CSS, JavaScript.

Develop features to enhance the users' experience

Make sure the web design is smartphone-capable

Build reusable code for future use

Keep the brand consistent throughout the whole design
