PROJECTS

E-voting system
Mentor: Dr harish | **Team Size:** 2
Key Skills: Java   MySQL

This project consists of desktop application which is used for secure voting on systems.Using this system, voters can vote online and its admin can easily manage and conduct a secure method for casting vote. It will have two actors - Admin and Voters. The admin can register the user in the data base to make him/her eligible for voting. The user will then get a user id and password with which they can log in and cast their vote. The admin will also be able to add the names of the candidate/parties which are taking part in the elections. Finally, the admin can calculate the votes and declare the results.

Online quize system
Mentor: Ravi | **Team Size:** 2
Key Skills: Java   JDBC   Servlets   NetBeans   Glassfish

Java program to display web contents. Java program basic knowledge also Basic concept of SQL JSP basics HTML and CSS for frontend GUI of website good step for better GUIwebsite for login as admin or student. For admin give adminsitrative action like add question etc.For student

Covid 19 cases tracker
Mentor: Ravi shankar | **Team Size:** 2
Key Skills: Spring Framework   Java

This project based on core java java spring framework

ASSESSMENTS / CERTIFICATIONS

NPTEL   April 1, 2020
Aggregate: 88.0 / 100.0
Subjects: Internet Of things (88.0 / 100.0)

SEMINARS / TRAININGS / WORKSHOPS
