ACADEMIC PROJECTS

MICROSERVICES for Developers
- Major Project(Team size-4)
- Functionalities :- CV maker , Online Compiler , TO-DO List, Notes maker, Courses
- This Project has been made to provide so much different Tools on a single platform to give ease to growing students and it is a Timesaving web-application also .
- ROLE :- (Frontend/UI) HTML ,CSS and Javascript

Hotel Management System (07/2019 - 08/2019)
- This was a terminal based UI system that offers a user to sign in as hotel staff or customer. Here a user can make his orders and check his expenditure and can see information about his orders for cross-checking.
- we made this hotel Management System using c++ .
- My Role was to make a good UI (terminal based) using c++.

INDIVIDUAL PROJECTS

Amazon single page Clone

Achievements/Tasks
- Front-end(UI) :- HTML, CSS , JavaScript, React
- Functionalities - Login, Logout, Add To Cart, Delete To Cart, Searching , Filtering

TO-DO List Web-Application

Achievements/Tasks
- I made this Web-Application using HTML for scripting the content and CSS for styling and a bit JavaScript to make it Responsive.
- User has options to add tasks and remove their tasks.
- some animation is also used for hovering.

CERTIFICATES

C and C++ (06/2019 - 08/2019)
It was a C and C++ course . There we also worked on some live projects like tic-tac-toe game. The famous snake game and also made a project of Hotel Management System.
