Lucknow, Uttar Pradesh

EDUCATION

- 2022 (Exp) - B.Tech IT, Abdul Kalam Technical University
- 2018 - Std. XII, 80.2%, UP Board
- 2016 - .Std. X, 84.5%, UP Board

PROJECTS

Virtual Desktop Assistant or Chatbot

Tech Stack — Python, Tkinter

User-centric chatbot design. Multiple input sources: voice-enabled and text.

Google Clone

Tech Stack — Python, Flask

Search Functionality like Google. Authentication leveraging Google Sign-In APIs.

Url Shortener

Tech Stack — Python, Flask

Shortening an earlier longer domain name to a much smaller redirect domain name. Leveraged Flask for deployment

Twitter Clone

Tech Stack — React, Firebase

It imitates the basic functionalities of the official twitter app. Web app is live on the given url:

sandy-twitter-f663d0.netlify.app/

Text Editor

Tech Stack — Python, Tkinter

Created a light-weight text editor with all basic features. Few features are open, create, edit, and save among others.

Car Rental Portal

Tech Stack — Python, Flask,MySql

It is an online system through which customers can view available cars, view profile and book car.
