LinkedIn HackerRank

Diligent IT enthusiast with 3-years Computer Science degree and 1+ year of industry experience. As a dedicated problem solver, I display an explicit skill in JavaScript, it's supporting libraries/frameworks and Web Development. Through my experience at TCS, I have gained further hands-on experience in the industry.

EXPERIENCE

MAY 2021 - AUGUST 2022
GRADUATE TRAINEE, TATA CONSULTACNY SERVICES (TCS)

- As a graduate trainee, industry professionals taught me a variety of cutting-edge technologies, including JavaScript, Java, Git, SQL, Python. In the development phase, business decision-making and effective communication training was also incorporated.
- Thereafter, I had been assigned to a Java based GUI project, where I have worked on high-tech ADAS based navigation system for biggest automobile company. Develop solutions and make business decisions by collecting and processing data.

AUGUST 2021 – APRIL 2022
FREELANCE SEO EXECUTIVE, ACTIVE FITNESS STORE, UAE

- My role here is mainly concentrated to off-page activities of their main website, which includes backlink creation and optimization strategy formation, along with doing keyword research and competitors' analysis followed by regular SEO audits.

OCTOBER-DECEMBER 2020
WEB DEVELOPER INTERN, UNHAD FOUNDATION (NGO)

- Working as a team, I have designed and developed the website for UNHADFOUNDATION, which is an NGO certified by Indian government.

JUNE 2020 – JUNE 2021
WEB DEVELOPER, MYGOVTSERVICE.COM

- I was responsible for managing and handling all the technical and development work of self-made website mygovtservice.com
- I also managed the SEO of the website, and was able to rank it on SERP.
- Due to its high performance, the website easily gets approved for Google AdSense.

JUNE-JULY 2019
JAVA TRAINEE, AKT SOFTWARE's

- I have completed six weeks industrial project training from AKT Software's. In this project I worked upon the software development of "Automated Teller Machine", reforming my skills in Java, which also included Database Management of the software.
