RESUME
Linux System-Administrator
Shaik Nabi Saheb, Handy :+91-9553409902

Professional Summary

Over all **2**+ years of hands-on experience in IT industry, in Linux/Unix administration, monitoring, configuration management and application deployments.

Education

- **Bachelor of Science** (**B.Sc**–Computers),Osmania college, RUK, Andhra Pradesh, India.

Employment – History

- **BUSINESS INTEGRATION SOLUTIONS PVT LTD**
  Role: System Administrator   **Period:** Jun-1-2020 To Till-date

Technical Skills - Expertise

- Linux/Unix System Administration
- Configuration of hostname's, IP's and providing DNS resolving name-servers
- Configuring Files/Directories permission's, Advanced Permissions SUID, SGID, Sticky-bit & ACL's
- Creating directories and configuration of mount-points, Remote copy using SCP, RSYNC tools
- User & group management, Lock/Unlock passwords, resetting passwords based on password-policy
- Backup configuration, restore management, taking backups via cron jobs and disaster recovery
- Process management, verifying list of open files and managing the process-based criticality
- Disk management, fdisk, df -h and du -sh and checking ram size using "free" command
- Package/Patch management through Redhat package manager RPM and YUM,
- Configuration of File-systems such as logical volume manager LVM, Redundant Array Independent disk RAID and configuration of SWAP file-systems
- Mounting file-systems on directories and managing mount-points from SAN & NAS
- Configuration of secure shell SSH and implementing Password-less authentication.
- Servers-Hardening, TCP Wrappers, troubleshooting server slowness
- Monitoring network, Server's health checks, Ticket-queue monitoring & Assigning
- Logs analyzing, troubleshooting, providing solutions & Submitting RCA root-cause analysis for technical issues

- ➢ TCP/IP Concepts, SSH, DHCP, IP-Routing, Configuring and managing
- ➢ **NFS& NIS** for shared network information
- ➢ Configuration of Network time protocol and managing **NTP** service
- ➢ Installation and Configuration of **FTP and SFTP** Servers
- ➢ Configuration of **Samba** server and managing samba shares
- ➢ Configuring and managing of web-servers Apache**, Tomcat, HTTP**, and **Proxy**
- ➢ Installing Configuring and Troubleshooting of mail-servers **SENDMAIL** and Postfix service
- ➢ Configuration of Domain Naming service **DNS** and Dynamic host configuration protocol **DHCP**
- ➢ Configuring mount points from **SAN** storage and maintaining **NAS** file-systems

LINUX: - <u>Roles and Responsibilities</u>

- ✓ Multiple flavors of OS installations done from ILO and Remote installations such as KICK-START
- ✓ Performing **OS patches** and applying application patches and roll-backing on quarterly basis
- ✓ Scheduling OS backups, mount point backups monitoring the alert mails accordingly
- ✓ Backup and recovering the files, directories by communicating with Backup/Backup design teams
- ✓ Managing Users, Groups, Password Security, Roles, Privileges and Resources**.**
- ✓ Implemented **security ACL's** as per request and done server hardening
- ✓ Configuring Logical volume manager (**LVM**) extending, resizing mount points as per requirement.
- ✓ Monitoring process management, performance management and preparing weekly reports
- ✓ Maintaining OS system security standards, host and client access, automate required audits.
- ✓ **RPM &YUM Package** Management in Red hat Linux and troubleshooting boot problems
- ✓ Hands on experience in remote administration using **SSH**, **SCP**, **TELNET**.
- ✓ Implemented **SSH password less** authentication and maintained good relationships various teams
- ✓ Monitoring CPU, Memory, Process utilization reports and performing troubleshooting activities
- ✓ Daily health checks and monitoring servers at OS level, Regular checking of Alert Logs, Archive Logs, Trace files and backup verifications and configuring TCP wrapper support to Allow/Deny
- ✓ Configuring and managing **NFS**& **NIS** for shared network information
- ✓ Configuration of Network time protocol and managing **NTP** service
- ✓ Installation and Configuration of **FTP and SFTP** Servers
- ✓ Configuration of **Samba** server and managing samba shares
- ✓ Configuring and managing of web-servers Apache**, Tomcat, HTTP**, and **Proxy**
- ✓ Installing Configuring and Troubleshooting of mail-servers **SENDMAIL** and Postfix service
- ✓ Configuration of Domain Naming service **DNS** and Dynamic host configuration protocol **DHCP**
- ✓ Configuring mount points from **SAN** storage and maintaining **NAS** file-systems
- ✓ Maintaining ticket tracker & activity tracker and assigning tasks to the team accordingly
- ✓ Deployed hardware devices like HP-Blade and SUN-Hardware's
- ✓ Handling tickets through Service-now, Service-request through support.oracle.com and having knowledge on ITIL process which enable productivity in reaching targets as per company target.

<u>Personal Profile:</u>

Name	:	Shaik Nabi Saheb
Father's Name	**:**	Shaik Chand Basha
Status	:	Single
Nationality	**:**	Indian
DOB	:	22-jan-1997
Languages Known	:	English, Hindi, Urdu, and Telugu.
Mobile #	:	+91-9553409902
Mail-Id	:	nabisaheb2073@gmail.com
Hobbies	:	Reading books, Cricket, Listening to music.

<u>DECLARATION</u>

I hereby declare that the above information is true to the best of my knowledge and belief.

Date:
Place: **(Shaik Nabi Saheb)**
