Warren Pope
Front-end Developer

I am Warren Pope. I have completed my M.Sc. in Computer Science from St. Xavier's College (Autonomous), Kolkata. Currently, I am in search of a suitable job opportunity as a web developer. I have sound knowledge of HTML, CSS, JavaScript, jQuery, Bootstrap, Java, C++, Python, PHP and MySQL.

Projects

2022
Sudoku Solver with API
Sudoku solving web application built with ReactJS and Python. Uses PyTesseract to convert image into a sudoku puzzle then solves the puzzle using backtracking.

2022
Weather App
Weather Forecast web application built with ReactJS using RESTful API services from AccuWeather to get information about the next 12 hours' weather forecast.

2019-2020
EduERP
EduERP is an enterprise resource planning for a college management system project that helps colleges to create a website for themselves and easily manage it from a control panel.
