Currently Working

2022

MOJOBOXX An In-Flight Company.
Have worked across the Applications and make new UI
and worked on tickets raised by the Product Team
which includes Debugging on Legacy Code. Post resolution
worked closely with the Quality Assurance Team for
Regression and Integration Testing.

Projects (GitHub: aditgupt)

P-1

Quote Generator App
(https://aditgupt.github.io/quote-generator-app/)
Worked on a Quote Generator Web Application
in Vanilla JavaScript which basically fetch Quotes from
API and also has a feature to Tweet that particular
Quote.

P-2

Pig Game
(https://aditgupt.github.io/pig-game/)

Worked on an Interactive Implementation of Pig Game
using Vanilla JavaScript where two players can play and
get scores by rolling a dice. The score of each user is
persisted until he/she loses or wins the Game.

P-3

City and Country Finder App
(https://aditgupt.github.io/Find-city/)
Worked on a Web Application in which we can find
city and country name by entering valid latitude and
longitude with the help of an API.

P-4

Note Taking App
(https://aditgupt.github.io/note-app/index.html)
Worked on an Interactive Note taking App using Vanilla
JavaScript in which we can take our Notes.

Skills

JavaScript, HTML5, CSS, BootStrap, ReactJS

Tools

Agile: Jira, Trello

Extra Curriculars

Worked as Core Committee Member in Kolahal
(Annual College Fest)

Participated in ROBOCHAMPS
(Technical Fest of MIET)

Languages

English/Hindi
