POSITIONS OF RESPONSIBILITY

Solution-oriented and problem solver with a year of experience building and maintaining software and software architecture. Highly skilled in communication, collaboration, and technical documentation.

TRAININGS

Full Stack Web Development And Data Structures And Algorithms
PepCoding Pvt Ltd, Noida
Feb 2022 - Aug 2022

Completed a Full stack web development and data structures and algorithms course of more than of 6 months from Pepcoding Pvt. Ltd.

PROJECTS

Movie app
Jun 2022 - Jun 2022
https://harkeshyadavmovie4u.netlify.app/

I build a movie app based on react. It's totally responsive. Used routing and API in this project. I have used local storage here so if you even refresh the whole page data will not be lost. Used bootstrap framework for cards.

Shopping Cart App
May 2022 - May 2022
https://harkeshyadavshoppingapp.netlify.app/

A responsive clone of an e-commerce website using React. Used redux for state management. It's totally responsive also. Also used bootstrap cards here.

MoveBox

Mar 2022 - Mar 2022

https://moveboxappbyharkeshyadav.netlify.app

I have developed a single-page application using Reactjs in which you can add box and just click on the box and you can move that box with the help of W-S-A-D keys like we do in games. You can reset, delete and toggle movement. Its responsive

Excel Clone

Feb 2022 - Feb 2022

https://raoharkesh.github.io/excelclone/

A completely Pure javascript and DSA Project but works well. It's a clone of Microsoft excel.
